

9TH ILGA ASIA 2022

Non Binary Preconference Statement

On November 29th 2022, the Non-binary Pre conference took place at the biannual ILGA Asia conference.

We, Non-binary and allies are proud and pleased to be participating in this half-day event and thank ILGA ASIA for the space that we had.

We recognize that all over Asia, we face the same issues, in different forms and to different degrees. There is a general lack of awareness about Non-Binary people, not only in societies but also among the movements.

1. After a long discussion and with participation of 46 individuals, **we came to this plenary with recommendation to ILGA ASIA's member and new elected executive board.**

- Include Non-binary perspectives and members in discussions and meeting
- Ensure the continuity of full-day non-binary pre-conferences
- Conduct research, documentation, and publications around non-binary topics
- Raise Non-binary visibility among our communities and highlight how being Non-binary intersects with other identities (neuro-queer, neuro-diversity.)
- Encourage our members to add Non-binary people to conversations that pertain to menstruation, abortion and reproduction
- Therefore, we demand ILGA ASIA allocate a place for a Non-binary representative on the Executive Board and explicitly include Non-binary people in the list of identities the organization represents, alongside lesbian, gay, bisexual, transgender, and intersex people.

Signed,

Participants of Non-binary Pre-conference
